THE NEWSLETTER OF

YOUR QUARTERLY NEWS & UPDATES ANNUAL APPEAL 2016

200 New Cases of Multiple Sclerosis Are Diagnosed Every Week and they need specialists to take care of them and facilities to support them!

Dear Friends of the Foundation,

An AAN study forecasts that the supply of MS healthcare workers would fall 20% below demand in just four years by the year 2020. Opportunities for specialized training in MS are few - the Foundation of the Consortium of MS Centers exists to meet this challenge and needs your support.

The Foundation has supported over 450 medical students, rehabilitation therapy trainees, resident scholars and fellows and even biostatisticians who have benefited from our Workforce of the Future programs. We have specialized training opportunities for professional growth, Research Awards and funding for specialized Fellowships. Our database of past recipients of these programs and their career status ensures that we can demonstrate the direct connection between your support and the success of current MS healthcare professionals and those professionals-in-training.

All of these programs are dependent upon contributions from supporters like you. We hope you will provide your support, small or large! We are all asked to give to many deserving charities, but few if any provide support for the next generation of MS professionals!

Please click on the logo below or send your check payable to FCMS and mail to 3 University Plaza Drive, Suite 116, Hackensack, NJ 07601 and continue or become a Friend of the Foundation today. We are very grateful for your support!

Regards,

Gary R. Cutter, MS PhD
President, FCMS Board of Trustees
