Kathleen Costello, MS, CRNP, MSCN
CEO, Foundation of the CMSC

The Foundation of the CMSC offers a comprehensive suite of events designed to nurture and develop the next generation of MS care professionals.

The Mentorship Forum events serve as an essential platform connecting seasoned experts with early-career professionals across the MS care continuum. These flagship events reflect the enduring legacy of June Halper, whose passion for mentorship helped shape the collaborative, multidisciplinary focus of the CMSC. In addition to the Mentorship Forum, the Foundation hosts the Scholar Reception, an intimate networking event that provides the scholars with invaluable opportunities to connect with established professionals, fostering relationships that often extend well beyond the conference. The Scholar Luncheon represents another cornerstone event where Medical Student Research Scholars present their poster presentations, showcasing their research contributions and receiving feedback from experienced clinicians and researchers in an encouraging, educational environment.

By investing in these dynamic sessions, you are not only advancing professional growth and excellence in MS care, but also helping to cultivate the next generation of clinicians, researchers, and advocates. Your support will directly impact the future of MS care by fostering meaningful connections, sharing critical knowledge, and building a stronger, more inclusive community.
